

# Open Seeds by OLS

Tooling for  
Collaboration:  
Open-source  
software in  
practice

# Tooling for Project Design

**Aim:** Learn about Open-source software from a practical perspective

## **Learning objectives**

At the end of this session, we will be able to

- Apply good coding practices to your software
- Review code
- Identify package management for your software
- Make your software ready for open-source

# Tooling for Project Design

## Content

- **3 Talks for the current cohort**
  - Good coding practices
  - Code review
  - Package management

Talks in previous cohorts, available on the [Open Seeds Video Library](#)
