

Open Seeds by OLS

Tooling for Open
Collaboration

Setting up a project

Tooling for Open Collaboration

Aim: Help you set up an open and welcoming project repository (online or shared) for your project so that you can work effectively with your team, community and/or contributors

Tooling for Open Collaboration

Learning objectives: At the end of this session, we will be able to

- Write a **README file** with information you'd like others to know
- Explain why you need an **open source license** and choose one
- Add a **Code of Conduct** about you can make working online for your contributors welcoming and safe
